**PROJECT AIMS TO IMPROVE TRAFFIC FLOW AT HAMPTON TOLL PLAZA**  
**INTERSTATE 95 ROADWAY WIDENING AND SIGN IMPROVEMENTS**

Motorists heading northbound on Interstate 95 in New Hampshire for the July 4<sup>th</sup> holiday weekend will benefit from roadway improvements at the Hampton Toll Plaza.

This project involves widening the Interstate 95 approaches to the Hampton Toll Plaza for 1.8 miles south of the toll plaza and for 1.3 miles north of the plaza to improve traffic flow and reduce traffic backups during peak traffic periods.

The northbound phase of the project has been completed. The southbound phase of the project will begin in September and be completed by November 15.

Sign improvements will include signs designating lanes for truck traffic and encouraging exact toll fare (\$1 for passenger cars) to save processing time with toll attendants.

Pike Industries, Inc. of Belmont, New Hampshire is the general contractor for the \$2.2 million project.
